RE: Draft Phased Environmental Impact Statement for the East Monroe Amendment to the City of Monroe Comprehensive Plan and Concomitant Rezone – February 2012

Petition for a full Environmental Impact Statement

To Whom It May Concern:

We are concerned that the current Draft Phased Environmental Impact Statement (DPEIS) does not provide enough information on what effect commercial development would have on the property. We are requesting that a full Environmental Impact Statement be prepared. In July the City of Monroe determined that an Environmental Impact Statement is required under RCW 43.21C.030(2)(c) on the proposed comprehensive plan amendment and rezone from Limited Open Space to General Commercial as it is likely to have a significant adverse impact on the environment.

RCW 43.21C.030(2)(c) Include in every recommendation or report on proposals for legislation and other major actions significantly affecting the quality of the environment, a detailed statement by the responsible official on:

(i) the environmental impact of the proposed action;

(ii) any adverse environmental effects which cannot be avoided should the proposal be implemented;

(iii) alternatives to the proposed action;

(iv) the relationship between local short-term uses of the environment and the maintenance and enhancement of long-term productivity; and

(v) any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented;

The current DPEIS does not provide enough information to satisfy long term uses of the property or the effects of commercial development of the properties.

Sincerely,

Concerned Citizens of Monroe
