Hi Kim,

I spoke with you yesterday in regard to the Safe Harbor Trust 9-lot Short Plat,
City of Monroe File #SP2019-02

I would like to be Kept informed as a party of interest on the progress of this project. I would like to attend any planning meetings etc. with regard to this project.

I spoke with the developer and he informed me that the sewers in the area are shallow and they will need to put a pump in. I would like to know how this will impact taking sewers to the end of 174th for future development.

I greatly appreciate any information you can provide me with.

Thank you
Shannon

Thank you for your Business, your Trust and your Referrals.
